## Meet the Founders & Visionaries Drs. Will & Brenda Chambliss

We are so excited to launch Global Vision 20/20; our seven year plan to make disciples and win souls and empower local church Pastors my planting those souls into their ministries. In 2004, we printed our last issue of Harambe Magazine and launched a seven year goal to establish the Embassy Network International Ministries and Body Builders Television Network. Our seven year goal and vision became a reality on September 1, 2012 when we launched the Body Builders Television Network.

In 2012, we prayed to see where we would go from here. February 17th set a new course when Dr. Chambliss asked me to marry him and on June 29, we “jumped the broom”. Despite our being ministry and business partners for several years, marriage really changed things. No longer just a team, we are now a couple and God has truly blessed this union. In so doing, we have sensed this is the season to launch our personal ministries that have been back burner to promote the other ministries of The Embassy. We are now launching our next seven year goal, Global Vision 20/20. As Pastors who operate with a Apostolic & Prophetic anointing, we are launching a campaign that is designed to take our ministry global and use that platform to make disciples, win souls and H. E. L. P. Pastors who partner with us to prepare their ministries for growth.

H. E. L. P. is and acronym for Harness Empower Leverage Position and is a part of a teaching and training benefit offered through the Embassy Resource Center for Pastors Churches & Leaders. As you know if you watch Christian TV; most broadcast and networks are designed to build a partner base for their ministry. At the Embassy, our goal is to build a partner base with local church Pastors so we can empower the local church and Pastor.

All aspects of our ministry, media, marketing and missions has one central them, to build and support local church Pastors. Over the next seven years, the Embassy Global Ministry Network will be branded as the new face of Christian Media. God is bringing balance and accountability to all areas, especially media. As we incorporate the local church Pastor as a active and ongoing part of our ministry outreaches, our goal is that we would encourage others to bring accountability to media.

Global Vision 20/20 has been called an “ambitious project” we call it a vision that can become a reality. Be a part of history as we take the Embassy Global Ministry Network to another level. We do not even know if we will be here to fulfill this goal because we all know that any day now, He can return. But, we who know scripture do know that making disciples and winning souls is an ongoing commission from the Lord. Let us “occupy until He comes” and be found working for the Kingdom and the King until He returns. Advancing the Kingdom... Drs. Will & Brenda Chambliss
